DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 30th 2008 has been entered.

Response to Amendment

2. Applicant's amendment filed January 30th 2008 has been entered and made of record.

3. Applicant has amended claims 1, 3-6, and 8-11. Claims 2 and 7 have been cancelled. Claims 1, 3-6 and 8-11 remain pending.

4. Applicant's remarks in view of the newly presented claims and the discussion in the telephone interview conducted with Carl Brundidge Reg. No. 29,621 on February 4, 2008, have been fully considered and found to be persuasive. The claims are accordingly in condition for allowance.

Allowable Subject Matter

5. Claims 1, 3-6 and 8-11 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant has amended independent claims 1, 6 and 8 to more clearly recite the invention by including the features of putting position data in the vertical blanking period in the image signal and using the position input data to determine the privacy related part of the image and transmitting both the privacy-related portion with the rest of the image signal. The image reception apparatus then receives image signal information and displays the image with or without the image privacy related image portion according to the position input data.

Wada discloses an image privacy mask for covering privacy related data in a video surveillance image, but does not teach or fairly suggest the details as now recited in the claims. No other found prior art of record teaches or fairly suggests the features of the independent claims as now recited. Independent Claims 6 and 8 are basically Claim 1 in two parts, the image capturing and transmitting part and the image receiving part respectively. These two claims are still distinguished from the prior art of Wada by the details of the position data adding unit and the transmission of the image data allowing for display of the image with or without the privacy related image portion according to the position data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
